

GenWare

Front of House

Product Collection

Vol. 2

GenWare

The Genware Front of House range gives an innovative, affordable and comprehensive solution to serving and presenting food and beverage.

Our selection of mixed materials, coupled with unique and practical design means that every establishment will be able to find ranges that fit their needs. The diversity and mix of products mean that the Genware range is ideal to create a unique presentation experience, easily and affordably.

Terra Tableware

Terra Porcelain's undefined beauty is crafted through natural effects and spontaneous reactions which occur in the kiln. A unique glaze formula, combined with high temperature firing, results in no two pieces looking exactly alike and colour intensity variations from piece to piece, creating a truly distinctive look.

Rustic Terra Stoneware®, available in a choice of colours, shapes and sizes, provides both individuality and style to food presentation, complementing the vibrancy and colourful nature of cuisines such as South American, Spanish Tapas and Mediterranean dishes.

The minimalist yet rustic Sereno collection combines effortlessly with other Terra Stoneware® colour ranges to help create a stylish base for creative food presentation. The coloured flecked edges, which is applied by hand making each piece unique, complements the off white body aiding the overall charm of the range.

Stunning, durable range, with innovative shapes and fantastic colour

Terra Porcelain

- **Conforms to BS4034 Quality Standard**

Every piece is subject to rigorous quality checks to ensure product quality

- **Fully Vitrified**

Low water absorption, more hygienic protection against bacterial growth and improved heat retention properties

- **Microwave, Dishwasher, Oven & Freezer Safe**

Perfect for heating and cleaning requirements, and protection against damage caused by thermal shock and temperature fluctuations

- **High Temperature Firing**

The twice firing process, up to 1320°C, ensures each product is strong and durable

- **Rolled Edge**

More durable and functional for added chip resistance in busy kitchen environments

- **Polished Foot**

Reduces damage when stacked and stored

- **Unique Glaze Formula**

Combined with high temperature firing, results in no two pieces looking exactly alike and colour intensity variations from piece to piece, creating a truly distinctive look

Terra Stoneware®

- **Style and Colour**

Terra Stoneware® is available in an assortment of attractive colours and designs that lend themselves perfectly to a variety of exciting food styles

- **Microwave and Dishwasher Safe**

Perfect for time efficient heating and cleaning requirements

- **Oven and Freezer Safe**
For protection against damage caused by thermo shock and temperature fluctuation

- **Coloured Glaze Finish**
Improves stain resistance and durability whilst providing an enhanced appearance

Inspired by the aging of Bronze, Antigo's grey finish with subtle highlights of green captures this process like no other with an unusual sense of historical importance. Natural variations in the reactive glaze adds to the authenticity of the range. Antigo products will tend to show wear and tear to a greater degree than standard glazed white items.

GenWare Porcelain Tableware

GenWare Porcelain Tableware offers a great quality range of durable and practical hotelware. The extensive collection covers multiple plate, bowl and beverage lines, with complementary service items to make your place setting complete.

The range is fully vitrified and conforms to BS4034, for low water absorption, improved hygiene, protection against thermo shock, increased strength and better heat retention. They are also microwave, oven, dishwasher and freezer safe.

The products are designed to withstand the tough foodservice environment, with rolled edges and rims on products to improve edge chip resistance, with selective products available with a five year edge chip guarantee*. GenWare Porcelain Tableware is suitable for most hotel, restaurant and foodservice applications.

*Comprehensive range of strong, elegant
and durable tableware*

- **Bright White Finish for Professional Use**

Specially selected clays for brighter white to give good presentation, compared to other porcelain alternatives

- **Conforms to BS4034 Quality Standard & Manufactured Under ISO9001**

Every piece is subject to rigorous quality checks to ensure product quality

- **5 Year Edge Chip Warranty**

Thicker rims and edges for good impact resistance properties on selected lines for quality assurance

- **Fully Vitrified**

Low water absorption, more hygienic protection against bacterial growth and improved heat retention properties

- **Rolled Edge**

More durable and functional for added chip resistance in busy kitchen environments

- **Microwave, Dishwasher, Oven & Freezer Safe**

Perfect for heating and cleaning requirements, and protection against damage caused by thermo shock and temperature fluctuation. Temperature range -40°C to 250°C

- **Durable Glaze**

Glaze hardness lasts longer to prolong product lifetime whilst improving stain resistance to enhance appearance

- **Polished Foot**

Reduces damage when stacked and stored

64 Porcelain Tableware - Classic Plates

Versatile and complete collection of plates with rolled rims for edge chip resistance.

GenWare Fine China Tableware

GenWare Fine China provides contemporary designs and shapes combined with stunning pure white colour. Products are designed with the tough foodservice environment in mind, with rolled edges on selected lines to improve chip resistance.

Ranges are fully vitrified and conforms to BS4034 for low water absorption, improved hygiene, protection against thermo shock, increased strength and better heat retention with selective products available with a five year edge chip guarantee*. This range is perfectly suited to banqueting, hotel, restaurant and gastropub use, giving an enhanced dining experience.

Stunning, durable range, with innovative shapes and fantastic colour

- **Pure White Fine China Colour**

Brilliant white colour for an attractive appearance is complemented by a lighter body, making these items both stunningly attractive and finely elegant

- **Fully Vitrified**

Low water absorption, more hygienic protection against bacterial growth and improved heat retention properties

- **Conforms to BS4034 Quality Standard & Manufactured Under ISO9001**

Every piece is subject to rigorous quality checks to ensure product quality

- **5 Year Edge Chip Warranty**

Thicker rims and edges for good impact resistance properties on selected lines for quality assurance

- **Rolled Edge**

More durable and functional for added chip resistance in busy kitchen environments

- **Microwave, Dishwasher, Oven & Freezer Safe**

Perfect for heating and cleaning requirements, and protection against damage caused by thermo shock and temperature fluctuation. Temperature range -40°C to 250°C

- **Durable Glaze**

Glaze hardness lasts longer to prolong product lifetime whilst improving stain resistance to enhance appearance

- **Polished Foot**

Reduces damage when stacked and stored

96 Fine China Tableware - Classic Plates & Pasta Bowls

Simple and elegant, this range is ideal for the top level service in restaurants, hotels and corporate dining. Classic Plates provide a graceful and traditional service option whereas the Deep Winged Plate and the Pasta Bowls are ideal for a range of alternative cuisine and stacked food presentation.

GenWare Stoneware

The GenWare Stoneware collection is attractive yet also both versatile and tough, with stoneware boasting an overall strength of body and chip resistance similar to porcelain.

Our Black and Luna Stoneware ranges offer a selection of dishes and ramekins, great as standalone items or when used to add striking contrast to traditional white tableware.

Forge is a range of Stoneware which combines the aesthetics of cast iron with the practicality and functionality of stoneware. Available in various shapes and styles, Forge Stoneware complements a variety of dishes such as Spanish tapas, Mediterranean brunches and Mexican cuisines.

Stunning, durable range, with innovative shapes and fantastic colour

- **Style and Colour**

GenWare Stoneware is available in an assortment of attractive colours and designs that lend themselves perfectly to a variety of exciting food styles

- **Oven and Freezer Safe**

For protection against damage caused by thermo shock and temperature fluctuation

- **Microwave and Dishwasher Safe**

Perfect for time efficient heating and cleaning requirements

- **Coloured Glaze Finish**

Improves stain resistance and durability whilst providing an enhanced appearance

108 Stoneware - Luna Stoneware

Luna Stoneware offers the perfect balance between contemporary style and durability with items available in an attractive matte black finish or a matte white glaze. Luna is particularly suited to Asian, Asian fusion and Mediterranean cuisine.

Cook & Serve

GenWare Cook & Serve perfectly complements our range of Porcelain Tableware. Oven, microwave, freezer and dishwasher safe, fully vitrified to BS4034, these ranges perform in all catering applications, adding to the foodservice presentation.

Individual service items, like Mini-Casserole Dishes and Contemporary Smooth Ramekins give a new twist to food presentation.

Hot counter service presentation can be improved with our range of roasters and gastronorm dishes, maximising fully hot counter space and minimising heat loss and cost.

In addition, Forge Buffet combines the aesthetics of cast iron with the practicality and functionality of stoneware. The modular and stackable range of rectangular and square roasters, alongside a large casserole dish, provides the perfect platform for creating a modern buffet service.

A stylish, practical and durable range of food presentation and counter service products

- **Bright White Finish for Professional Use**

Specially selected clays for brighter white to give good presentation, compared to other porcelain alternatives

- **Durable Glaze**

Glaze hardness lasts longer to prolong product lifetime whilst improving stain resistance to enhance appearance

- **Fully Vitrified**

Low water absorption, more hygienic protection against bacterial growth and improved heat retention properties

- **Microwave, Dishwasher, Oven & Freezer Safe**

Perfect for heating and cleaning requirements, and protection against damage caused by thermo shock and temperature fluctuation. Temperature range -40°C to 250°C

- **Rolled Edge**

More durable and functional for added chip resistance in busy kitchen environments

- **Heat Retention**

The Cook & Serve products benefit from superior heat retention properties

- **Conforms to BS4034 Quality Standard & Manufactured Under ISO9001**

Every piece is subject to rigorous quality checks to ensure product quality

Table Presentation

The GenWare range of innovative Table Presentation items are perfect for modern casual dining establishments and serves to showcase how foodservice has developed beyond purely standard plates and service lines. Wooden platters and boards offer a natural, rustic and stylish look, fully tested to British standards for food safety, and work well in combination with other items, such as Cast Iron dishes.

Our miniature range of baskets, buckets, roasters and saucepans offer a fun and easy way to spice up food presentation and can provide new menus and dishes with the 'wow' factor. Slate products provide a stylish and contemporary alternative to traditional food service presentation and feature rubber feet to prevent scratching.

Innovative, design-led ideas that can transform food

134 Table Presentation - Olive Wood Serving Boards & Paddle Boards

- Olive wood is known for its versatility, strength and striking appearance with each piece having its own unique features due to the olive tree's distinctive grain
- Olive wood is a natural product with each piece being carefully crafted by hand therefore size, shape and finish will vary from piece to piece
- All boards are made from 2 - 2.2cm thick olive wood giving the product a premium heavyweight feel and ensuring a longer life

156 Table Presentation - Enamelware

Our range of classic Enamelware is a traditional yet retro English style. The vitreous, double coated enamel resists stains and scratches and improves product durability. Just like any other ceramic, the outer porcelain layer can chip overtime, especially if dropped revealing the steel beneath it. When this happens the steel below naturally oxidises and the enamelware remains safe to use and adds character.

Glassware

GenWare Glassware is an exciting, concise and durable range of quality glassware, designed to fulfil the key needs of the foodservice industry. Stemware, Tumblers, Beer glasses, Shots and Cocktail glasses, Hot Beverage and Dessert glassware are included, covering a large number of applications and establishment needs.

We offer a rim and foot chip guarantee on all stemware. In order to prolong the life and quality of your glassware in use, we recommend following our product care and guidance information at www.nevilleuk.com/contentpage/productcare

*A concise range of elegant,
durable glassware*

Fully Tempered Fine Glassware

SHEER RIM

Sheer rim glasses feature a fine and beadless edge which has been produced to give optimal contact with the mouth enabling wine to be directed to specific tasting areas.

SEAMLESS FLAME POLISHED STEM

No seam between the bowl and stem, ensuring a more enjoyable drinking experience and an aesthetically pleasing glass.

HEAT RESISTANT

Thermal shock tested and resistant to 135°C and can withstand changes in temperature from hot to cold.

RIM TO FOOT TEMPERED

Fully tempered glasses are resistant to mechanical shocks, extending the life of the product by five times, compared with non tempered glass.

DISHWASHER SAFE

Strong and durable, shock tested and capable of industrial dishwasher cycles, while maintaining clarity.

WHAT IS TEMPERED GLASSWARE?

Tempering is a thermal process of heating a glass close to melting point then cooling it rapidly. This causes the outer surface of the glass to cool and shrink faster than the inside of the glass wall, creating a tight skin. This closes the many hairline fractures that naturally occur in regular annealed glass and make a vastly stronger product.

HOW STRONG IS TEMPERED GLASS?

Tempered glass is 5 times stronger. This is known as Mechanical Shock Resistance, making a cost effective choice.

ARE ALL GLASSES FULLY TEMPERED?

All glassware with a "T" placed on it are fully tempered from rim to foot both inside and out. Not all manufacturers temper to the same high standards.

IS TEMPERED GLASSWARE MORE RESISTANT TO TEMPERATURE CHANGES?

Fully Tempered items are resistant to 135°C temperature changes. This is tested by taking an item of glass from the oven at 135°C and then plunging it into cold water. The glassware will not shatter or break.

WHAT DOES SHEER RIM MEAN?

Sheer rim glasses feature a fine and beadless edge which has been produced to give optimal contact with the mouth, enabling a superior drinking experience.

Drinkware

The GenWare range of Drinkware covers a selection of stylish and innovative vessels, mugs, pots, cones and cups that work perfectly as alternatives to traditional glassware for the presentation of cocktails and cold beverages.

Copper and Stainless Steel Martini Glasses are perfect modern substitutes to the classic martini when serving stylish cocktails. Whilst our designs of Copper Mug provide a seriously cool way to serve popular cocktails such as a Moscow Mule or a Paloma.

Tiki Mugs add to the fun factor when presenting cocktails, evoking the spirit of the South Pacific.

*A contemporary collection
of stylish drinkware*

GenWare Cutlery

GenWare Cutlery offers an ideal combination of performance, style and value. We have eight unique premium patterns, exclusive to the GenWare Cutlery range, designed to encapsulate innovation and functionality. These patterns (all of which are 18/0 stainless steel and highly polished) provide an eclectic mix of styles; from elegant sophistication through to strong and robust handling.

In addition, GenWare Parish Cutlery is hand polished offering excellent resistance to staining and pitting, while our Millennium Cutlery provides good cutting blades for volume users.

*Versatile Cutlery designs with functionality,
quality and value that's durable*

Table Service

GenWare Table Service ranges cover a wide selection of lines, suitable for use alongside crockery, cutlery and glassware to complete the table setting.

These ranges cover traditional through to contemporary styles, ensuring that there are products to suit all requirements. Materials are selected for the best quality, durability and appearance in use.

Table caddies are available in numerous options, from classic wooden handled models through to modern wire designs – each offering a means to storing condiments.

Salt and pepper shakers and grinders are available in a range of materials and styles to complement a multitude of different table settings.

A wide variety of service products to complete your food presentation

Beverage Service

GenWare Beverage items are designed to cover a wide range of applications. Unbreakable vacuum pots and jugs provide excellent heat retention, making them ideal for conferencing, meetings and corporate events.

Insulated jugs in white and black offer stylish beverage service that complements ceramic tableware. Cafetières are available in all sizes, with tough pyrex glass and good quality materials make these perfect for service of coffee and speciality teas.

*Practical solutions to serve fresh,
hot beverages*

Product Care & Guidance

Genware products are manufactured to provide the robustness and durability required for maximum performance in the hospitality and foodservice industry.

We want you to be confident in your purchase and gain the maximum life and value from your Genware products, so we have compiled the following guidelines to assist you. However, should you have any further questions, please contact your Genware distributor directly.

We recommend for all of our products that are intended to come into contact with foodstuffs to remove any labels or packaging and to wash, rinse and dry before first use.

Ceramics Dishwashing

To avoid this unnecessary damage and to preserve the appearance of your products, we recommend the following as a guide for washing our ceramic items.

We recommended following the manufacturer's guidelines for wash temperature, rinse cycle and detergent dosage. Assess water hardness and make sure water softeners are used if required. Wash before using for the first time and ensure items are washed promptly after each use.

Use plastic or rubber scrapers to remove excess food residue before washing, as metal utensils or abrasives may damage the glazed surface.

Never wash cutlery or other metal items amongst ceramic products; these should be washed separately in our specially designed cutlery baskets.

Storage

Wherever possible, use the appropriate racks for storage. Make sure that handles/spouts do not knock together when stored as this can cause wear and damage to the products glaze.

Contact with metal surfaces and other metal products should be kept to a minimum to reduce metal marking and abrasion with metal counter tops. This can be reduced by using plastic or rubber mats to line metal surfaces.

Guidance

Genware ceramics are Oven, Microwave, Freezer and Dishwasher safe with a suitable temperature range between -40°C to 250°C. We also offer edge chip warranty on selected lines. In order to ensure the life of your products, we recommend adequate stock to ensure correct rotation and careful

handling will extend the life of your products when in service and provide greater value over the life of your Genware ceramics.

In order to reduce the possibility of thermal shock which can cause damage to your products, we recommend you do not subject the product to sudden extreme changes in temperature such as direct from a freezer to a hot oven or grill.

Our matt glazed and coloured products will tend to show wear and tear to a greater degree than standard glazed white items. The better you take care of your products, the longer these will last. Like all matt glazes, cutlery could mark it.

If you are uncertain which products will give you maximum performance, we recommend asking the advice of your Genware distributor.

Glassware Dishwashing

Our range of glassware is designed to be washed in commercial glasswashers, except our Double Walled glasses, which should be hand washed only. To ensure the on-going quality of the product we recommend the following.

All new glasses should be washed before first use. Glassware should not be washed at temperatures above 60°C as this can cause debris to be baked onto the glasses during the washing process. Glasses that are found to have been cracked or chipped in use should be disposed of and not placed into the dishwasher. Non-caustic detergents should be used as caustic detergents can damage and dull the surface of the glass.

Storage

To avoid damage to glassware when not in use, we recommend storing glassware in correctly sized compartment glass racks.

As a guide you can use the below matrix to help you select the correct glass rack. Please ensure you have the exact glass height and the diameter of the glass at its widest point.

Max. Glass Height	Max. Diameter Ø					
	54mm	68mm	83mm	108mm	145mm	
Base Rack	79mm	GR49	GR36	GR25	GR16	GR9
Rack + 1 Ext	121mm	GR49-1	GR36-1	GR25-1	GR16-1	GR9-1
Rack + 2 Ext	160mm	GR49-2	GR36-2	GR25-2	GR16-2	GR9-2
Rack + 3 Ext	202mm	GR49-3	GR36-3	GR25-3	GR16-3	GR9-3
Rack + 4 Ext	246mm	GR49-4	GR36-4	GR25-4	GR16-4	GR9-4

For each of the measurements, select the following;

Glass Height: Always select the Max. Glass Height row that is exact or larger than the height of your glass.

Max. Diameter (Ø): Again select the maximum diameter of your glass that is exact or larger and follow this column to the row that you selected for the height.

For example, if your glass is **85mm** high and has a maximum diameter of **70mm**.

You select the row **121mm** and then select the Max. Diameter column you select is **83mm**. This glass would need a rack **GR25-1**.

Do not stack glassware that is not recommended as stackable.

Do not store or place cutlery in glasses as this can damage and mark the surface of the glass.

Guidance

To prolong the life of hot drinks glasses we recommend pre-heating the glasses by running them under a hot tap.

Do not put cold liquids straight into glassware that may be hot or warm as this can cause cracks.

Melamine

Melamine is a robust, highly scratch, chip and break resistant plastic that if cared for correctly can provide great value.

Use plastic or rubber scrapers to remove excess food residue before washing, as metal utensils or abrasives may damage or scratch the products surface.

Do not use abrasive detergents or bleaches when washing, as this may stain or damage the products surface.

Melamine products are dishwasher safe but are not suitable for boiling water, use in ovens or microwaves and are designed to be used in temperatures from -20 to +70°C.

Suitable for use in chafing dishes and bain maries within the above temperature guidelines.

Acacia Wood

Acacia is a durable hard wood from fast growing trees. It's beautiful grain and varied colour gives products a warm rich colour. Correct care of wood products can massively increase their longevity in use.

Acacia wood is not suitable for dishwashing and should be washed in warm soapy water only.

It should not be left to soak in water, as this will cause damage to the product and should be dried immediately after washing.

It should also not be left in direct sunlight and be stored in a cool dry place.

Acacia Wood (cont)

Acacia can dry out with use, so occasional application of vegetable oil or food safe wood treatment oil will help to keep the original natural appearance and prolong the life of the product.

Acacia wood is a natural material and its colour and grain will vary from product to product.

Over a reasonable period of time, depending on the level of usage, you should expect the products surface to show a level of wear and tear due to the nature of wood.

Oak Wood

Oak wood is a durable hard wood from fast growing trees. It's beautiful grain and varied colour gives products a warm rich colour. Correct care of wood products can massively increase their longevity in use.

Oak wood is not suitable for dishwashing and should be washed in warm soapy water only.

It should not be left to soak in water, as this will cause damage to the product and should be dried immediately after washing.

It should also not be left in direct sunlight and be stored in a cool dry place.

Oak wood can dry out with use, so occasional application of vegetable oil or food safe wood treatment oil will help to keep the original natural appearance and prolong the life of the product.

Oak wood is a natural material and its colour and grain will vary from product to product.

Over a reasonable period of time, depending on the level of usage, you should expect the products surface to show a level of wear and tear due to the nature of the wood.

Olive Wood

Olive wood is known for its versatility, strength and striking appearance with each piece being carved from a single piece of wood. Correct care of wood products can massively increase their longevity in use.

Olive wood is not suitable for dishwashing and should only be washed by hand in warm soapy water.

It should never be left to soak in water, as this will cause damage to the product and should be dried immediately after washing.

Do not leave olive wood in direct sunlight and store in a cool dry place.

Olive wood can dry out with use, so frequently apply olive oil ideally after every wash to help nourish the wood and bring back the beauty of the grain. This will help keep the wood's original natural appearance and prolong the life of the product.

Olive wood is a natural product and by its nature the size, shape and finish will vary from piece to piece, this is also however part of its charm.

Over a reasonable period of time, depending upon the level of usage, you should expect the products surface to show a level of wear and tear due to the nature of wood.

Slate

Slate is not suitable for dishwashing and should be washed in warm soapy water only.

It should not be left to soak in water, as this will cause damage to the product and should be dried immediately after washing.

Cutting directly on slate with sharp or serrated knives will mark the surface of the product.

Maximum temperature to be placed on a slate product is 70°C

Enamelware

Due to the nature of this product, the outer porcelain layer can chip over time. When this happens the steel below naturally oxidises and the enamelware remains safe to use.

To prolong the life of enamelware we recommend the following:

- Wash before first use
- Before use, use a light coating of cooking oil to protect the enamelware from staining and makes the washing easier
- After use, soaking the product in warm or hot water and gently wash with a liquid detergent
- Do not use abrasive cleaning pads or gritty soap powders, as this may lead to chips
- Do not place empty enamelware or allow to boil dry on a hotplate or gas hob.

Copper Plating

Copper plating is as delicate as it is beautiful and should be handled with great care. Below are a few tips on how to care for your copper plated items.

Product Care Instructions

- Hand wash the product with warm water only, after every use
- Ensure you dry the product completely with a soft cloth after each wash
- When the product is displaying signs of tarnish, rub with a metal polish compound and soft cloth

Do Nots

- Do not allow the copper plated surface to be in direct contact with foods that are acidic in nature such as vinegar and lime
- Do not use the product over direct heat/flame
- Do not scrub the copper surface with an abrasive sponge
- Do not use industrial detergent on the copper plated surface
- Do not leave the product wet as permanent water marks may stain the surface
- Not for use in a dishwasher

Please be aware copper will naturally oxidise over a period of time

Gun Metal Black

Below are a few tips to help prolong the life of your Gun Metal Black Barware and drinkware items.

Product Care Instructions

- Hand wash the product with warm water only, after every use
- Ensure you dry the product completely with a soft cloth after each wash
- When the product is displaying signs of tarnish, rub with a metal polish compound and soft cloth

Do Nots

- Do not use the product over direct heat/flame
- Do not scrub the Gun Metal surface with an abrasive sponge
- Do not use industrial detergent on the Gun Metal surface
- Do not leave the product wet as permanent water marks may stain the surface
- Not for use in a dishwasher

Galvanised Steel

Galvanised steel provides a fantastic rustic alternative to stainless steel but it does not possess its rust resistant properties and requires correct and careful usage to get the most of the products.

Galvanised steel should not come into contact with foodstuffs and should always be protected with one of our greaseproof paper liners, particularly when serving food cooked in hot oil as this will cause additional damage to the products.

We recommend hand washing in warm soapy water, as this material is not dishwasher safe. This will reduce the chance of corrosion and staining.

Stainless Steel

Throughout the Genware brochure you will find a wide range of products manufactured from stainless steel. Cared for correctly, stainless steel is a fantastic metal that can provide years of regular service and offers excellent value.

All of the stainless steel products within the Genware range are of the highest standard and should be free from any impurities that could be of detriment to its performance.

Stainless steel is often described as 'rustless' or 'rust resistant' which whilst having an element of truth, will only be the case if it is cared for correctly, including the use of our Peek Polish products.

All of our stainless steel products are dishwasher safe, unless otherwise identified, and should not be left to soak prior to washing.

Some of the key Genware ranges are manufactured from high quality stainless steel and have additional guidance specific to these products. Please see overleaf for further guidance.

Stainless Steel Cutlery

In order to provide the greatest possible value at each and every price level within the Genware cutlery ranges, we put a great focus on the quality of the 'out of the box' polishing levels, as this is key to allow the user to maintain a high quality finish, free from marking, staining and corrosion.

We recommend following the manufacturer's guidelines for wash temperature, rinse cycle and detergent dosage. Assess water hardness and make sure water softeners are used if required. Wash before using for the first time and ensure items are washed promptly after each use.

Our stainless steel cutlery is dishwasher safe and should not be left to soak prior to dishwashing.

We recommend that immediately, or as soon as possible after use, cutlery should be washed to remove excess foodstuffs as they contain salts, acids and fats which may cause corrosion.

Cutlery should not be cleaned with abrasive cleaning articles or detergents as this may scratch, damage or stain the surface of the product.

Cutlery should be washed in specially made cutlery baskets, which should not be over-filled so as not to impede the flow of water and reduce the effectiveness of the cleaning process.

Once cleaned, the product should be dried immediately or removed from the dishwasher to avoid prolonged contact with water or moisture which can cause corrosion or rusting.

Vacuum Beverage Servers

Stainless steel vacuum beverage servers are a great way to keep beverages at their optimum temperature, for some up to 20 hours if cared for correctly.

Vacuum beverage servers are not dishwasher safe. Dishwashing may cause the product to lose its vacuum properties.

Hand washing in warm soapy water with mild detergents is recommended.

Spare lids are available for a number of products in this range and can be used to prolong the life of the product for many years.

Aluminium

Throughout the Genware brochure, you will find a wide range of products manufactured from aluminium.

Aluminium is a softer metal than stainless steel and requires a greater level of care, both in use and during washing.

All of the aluminium products in the Genware range are of the highest quality and should be free from any impurities that could be of detriment to its performance.

Aluminium is a fantastic conductor of heat and is used within the majority of our cookware ranges (including a layer within the base of our stainless range), as it is by far the best material to provide even heat distribution. All products manufactured from aluminium are not dishwasher safe. Dishwashing will cause the product to become discoloured due to the caustic nature of detergents.

Below are some of the key Genware ranges which are manufactured from aluminium and additional guidance specific to those products.

Polyethylene (Low & High Density, PE) - Plastic

Polyethylene is used to produce our high and low density chopping boards. High density PE is tougher than low density and will keep a better, usable surface for longer, as it is more resistant to cutting. PE is not dishwasher safe as this may cause the product to warp. It has a safe temperature range from -40°C to +95°C approx.

SAN - Plastic

SAN is a tough but brittle plastic that can be made transparent or takes colour well, and can be produced with high gloss finish.

SAN is dishwasher safe up to 71°C approx. and is also microwave safe.

It has a safe temperature range from 0 to 71°C approx.

Acrylic - Plastic

Primarily used in our salt and pepper mills, due to its fantastic clear appearance.

Acrylic is not dishwasher safe and should not be subjected to temperatures above 50°C.
